activities to bring people together

WE ARE GREEN!

In 2003 we embarked on a 10-year Countryside Stewardship Scheme run by DEFRA to help us develop the land in an environmentally-responsible way. We established the deer park, planted 600 metres of hedgerows, re-stocked the park with oak, beech and horse-chestnut trees, created a scrape to encourage wetland birds and started to restore the Victorian walled garden.

In 2015 we installed an electric car charging point, introduced a small flock of rare-breed Manx Loaghtan sheep and attained the Staffordshire Environmental Quality Mark. We are continuing our programme of energy conservation and eco-friendly policies and became a member of Green Tourism in 2019.
